Automatic Roller Coat Varnish Coater

This 'King of Thin paper' roller coat varnish coater specifically for 80gsm thin paper, air knife system controlled by memory type PLC. The whole machine is highly automated, for water based oil and UV oil varnish coating, the coating is smooth and fine, saves varnish oil and meets the quality requirement. Humanized design uses high piling/stacker height, increase efficiency, and save labor intensity. Simple operation, high configuration, mainly equipped with imported brand electrical and bearings. Powder remove is optional.
