## Automatic Die Cutting Machine

自动模切机

- ①平压平模切机为了确定当今的模切、凸压、压痕工艺而设计。换板快速，收纸、拉规、送纸、定位一按，全部自动定位功能，加上压力调整机构，共同完成模切工作。
- ②由电气控制，输纸控制，收纸控制组成
- ③油路系统采用集中润滑方式

- ①The flat bed die cutting machine is designed for die cutting, embossing, debossing, creasing process. Change mold fast, paper delivery, pull lay, paper feeding, positioning by one press, all automatic positioning will be done, together with the pressure adjustment mechanism to complete the work of cutting.
- ②By electric control, paper feeding control, paper delivery control.
- ③The machine is equipped with the automatic lubrication system.

### TECHNICAL PARAMETER

最大纸张	Max.sheet size	600x480mm
最小纸张	Min.sheet size	300x210mm
主电机	Main motor power	5.5kw
总功率	Machine power	8.5kw
最厚的纸张	Max.paper range	1000g
最薄的纸张	Min.paper range	120g
外型尺寸	Overall machine dimension	3400x1355x1640mm
收纸高度	Max.delivery pile height	830mm
送纸高度	Max.feeding pile height	1000mm
最高速度	Max.mechanical speed	6500s/h
最高工作速度	Max. working speed	5500s/h
机器重量	Machine weight	5600kg
最大压力	Max working pressure	150T
